

AXIS COMPENSATION MODULES

SERIES ARP

► PRODUCT ADVANTAGES

► Lockable centre placement

When moving your robot, you can fix the equalizer in place so that uncontrolled movements of the workpiece do not take place

► Extremely flat design

This structure reduces the moment load for your robot to a minimum and makes it possible to use smaller and more affordable sizes

► Variable balancing force and moment

Adjust the equaliser to your handling weight by mounting a spring package based on desired rigidity

4

► THE BEST PRODUCT FOR YOUR APPLICATION

► Our products welcome the challenge!

Extreme conditions, all over the world—our tried and tested components and systems give you endless possibilities.
