

# 2-JAW PARALLEL GRIPPERS

## SERIES MGP800

### ▶ PRODUCT ADVANTAGES

#### “The powerful”

▶ **Over 40% more powerful than the benchmark**

Optimisation of weight and force reduces your application costs since all components can have a smaller scale

▶ **Gripper jaws up to 50% longer than the benchmark**

The highest force and torque measurement enables flexible use for maximum dynamics

▶ **Failure-free continuous operation**

Our uncompromising “Made in Germany” quality guarantees up to 10 million maintenance-free cycles

### ▶ SERIES CHARACTERISTICS

| Installation size                                                                                                             | Version |    |
|-------------------------------------------------------------------------------------------------------------------------------|---------|----|
| MGP8XX                                                                                                                        | N       | NC |
|  Spring closing C                          |         | •  |
|  10 million maintenance-free cycles (max.) | •       | •  |
|  Magnetic field sensor                     | •       | •  |
|  IP40                                      | •       | •  |

## ► BENEFITS IN DETAIL

- ① **Robust, lightweight housing**
  - Hard-coated aluminum alloy
- ② **Gripper jaw**
  - individual gripper finger mounting
- ③ **Position sensing**
  - permanent magnet for direct monitoring of piston movement
- ④ **Integrated gripping force safety device**
  - spring integrated into cylinder as energy storage (from size 803 upwards)
- ⑤ **Removable centering sleeves**
  - quick and economical positioning of the gripper fingers
- ⑥ **Mounting and positioning**
  - mounting possible from several sides for versatile positioning
- ⑦ **Energy supply**
  - possible from several sides
- ⑧ **Sensing slot**
  - mounting and positioning of magnetic field sensors

## ► TECHNICAL DATA

| Installation size | Stroke per jaw<br>[mm] | Gripping force<br>[N] | Weight<br>[kg] | IP class |
|-------------------|------------------------|-----------------------|----------------|----------|
| MGP801            | 1                      | 6 - 8                 | 0,008          | IP40     |
| MGP802            | 2                      | 16 - 19               | 0,016          | IP40     |
| MGP803            | 3                      | 35 - 55               | 0,025 - 0,035  | IP40     |
| MGP804            | 4                      | 60 - 90               | 0,05 - 0,07    | IP40     |
| MGP806            | 6                      | 100 - 140             | 0,1 - 0,11     | IP40     |
| MGP808            | 8                      | 170 - 220             | 0,16 - 0,18    | IP40     |
| MGP810            | 10                     | 270 - 350             | 0,28 - 0,32    | IP40     |
| MGP812            | 12                     | 320 - 400             | 0,41 - 0,46    | IP40     |

## ► FURTHER INFORMATION IS AVAILABLE ONLINE

All information just a click away at: [www.zimmer-group.com](http://www.zimmer-group.com). Find data, illustrations, 3D models and operating instructions for your installation size using the order number for your desired product. Quick, clear and always up-to-date.

# 2-JAW PARALLEL GRIPPERS

## INSTALLATION SIZE MGP802

### PRODUCT SPECIFICATIONS

#### Gripping force diagram

#### Forces and moments

Displays static forces and moments that can also have an effect, besides the gripping force.

|         |    |
|---------|----|
| Mr [Nm] | 1  |
| Mx [Nm] | 3  |
| My [Nm] | 2  |
| Fa [N]  | 90 |

### INCLUDED IN DELIVERY

4 [piece]  
Centering Disc  
DST80200

### RECOMMENDED ACCESSORIES

#### ENERGY SUPPLY

**GVM3**  
Straight Fittings - Barb Style Connection

**WVM3**  
Angled Fittings - Barb Style Connection

#### ENERGY SUPPLY

**DEV04**  
Quick Exhaust Valve

# 2-JAW PARALLEL GRIPPERS

## SERIES MGP800 FUNCTIONAL DESCRIPTION

### ENERGY SUPPLY

### Pneumatic threaded connections

Available in straight and angled design. Can be chosen freely depending on the space conditions or installation situation.

### Quick exhaust valve – DEV

**For rapid bleeding of the compressed air and preventing back pressure**

The inline valves make a faster cycle time possible and prevent the formation of condensate in grippers with a small cylinder volume. To ensure the function, the valve must be installed as close to the gripper's air connection as possible.

## SENSORS

### MFS02

### MFS01

### 1-point magnetic field sensors – MFS

#### For non-contact sensing of the piston position

These sensors are installed in the C-groove of the gripper and detect the magnet attached to the piston of the gripper. To ensure use in a wide variety of space conditions, the sensors are available in two variants. While the horizontal MFS02, with straight cable outlet, disappears into the C-groove of the gripper almost completely, the vertical MFS01 is taller, but has a cable outlet that is offset at an angle of 90°. The variants are available in versions with 5 m cables with exposed leads and 0,3 m cable with connector.

# 2-JAW PARALLEL GRIPPERS

## SERIES MGP800 FUNCTIONAL DESCRIPTION

### SENSORS

#### 2-point magnetic field sensors – MFS

With two freely programmable switching points

Using the programming unit integrated in the cable, two switch points can be freely defined for this sensor. To do so, the sensor is clamped in the C-groove, the gripper approaches position one and the position is taught in using the teach button. Afterwards, the second position is approached with the gripper and programmed. To ensure use in a wide variety of space conditions, the sensors are available in two variants. While the horizontal MFS02, with straight cable outlet, disappears into the C-groove of the gripper almost completely, the vertical MFS01 is taller, but has a cable outlet that is offset at an angle of 90°. The sensors are available in versions with 5 m cables with exposed leads and 0,3 m cable with connector.

### CONNECTIONS / OTHER

#### Plug-in connectors

For extending and fabricating the connection lines for the sensors

Cables with a length of 5 m with exposed leads are available. Depending on the specific needs, the cables can be shortened or fabricated with connectors in sizes M8 and M12.

## CONNECTIONS / OTHER

### Centering sleeves

#### For defined position measurement of the gripper fingers

The centering sleeves are inserted into the fits of the gripper jaws to define the position of the gripper fingers. The centering sleeves are comparable to a pin connection.
