to
firebirdie

The FireBirdie® combines precision work with high flexibility and easy handling. The tool allows infinite **drilling up and down** – even with long or pre-inserted blind rivet nuts – and starts the drilling process automatically with a light press. Three operating modes, force-controlled, stroke-controlled or combined in **THREADSAFE** mode, can be easily set via the display and ensure maximum control and reproducible setting results. Thanks to tool-free changeover to a different blind rivet nut size and simple length adjustment, the tool can be quickly adapted to different requirements. With a stroke of **15 mm** and a **setting force of 13 kN**, the FireBirdie® is ideal for industrial use – both stationary and mobile.

Engineered and made in Germany – for reliable quality and durability.

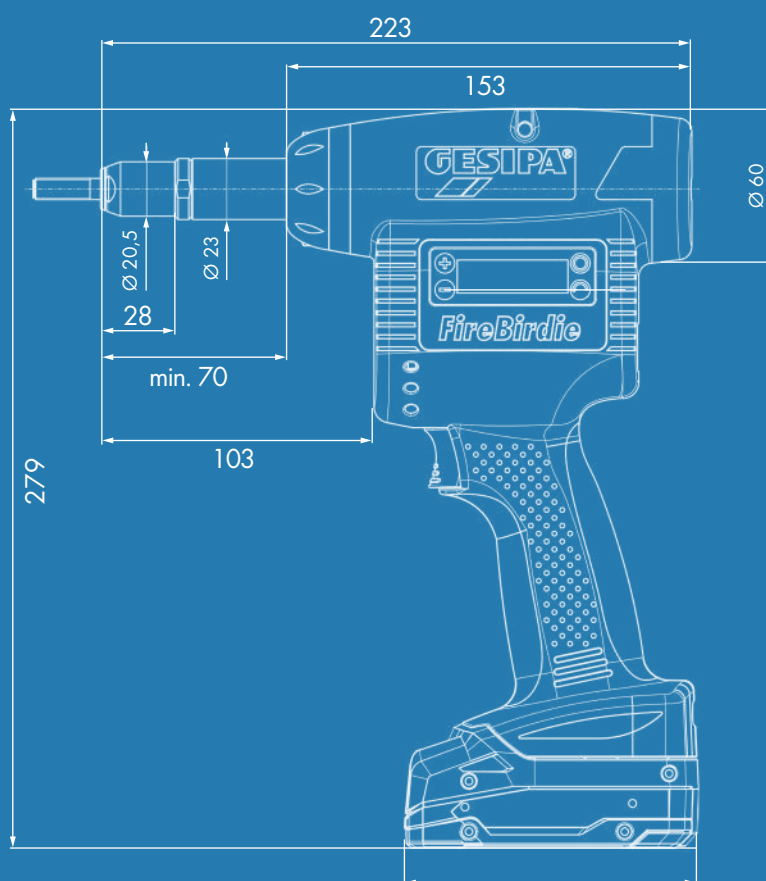

Technical Data

Weight without battery:	1.3 kg
Weight with battery:	1.7 kg (battery 2.0 Ah)
Stroke:	15 mm
Setting force:	13,000 N
Drive:	DC motor (BLDC)
Working range:	Blind rivet nuts from M3 to M6 in all materials and up to M8 steel

The **FireBirdie®** not only impresses with its size and weight, but is also equipped with the latest and most innovative technology. The blind rivet nut tool thus offers flexibility when working as well as unique benefits.

Operating manual

Part no.

No. 2151868 FireBirdie® in L-BOXX without battery*, without charger

No. 2151869 FireBirdie® in L-BOXX, including 1 battery* + 1 charger

No. 2151870 FireBirdie® in L-BOXX, including 2 batteries* + 1 charger

No. 2151862 FireBirdie® in cardboard box without battery*, without charger

No. 2151865 FireBirdie® in cardboard box, including 1 battery* + 1 charger

No. 2151866 FireBirdie® in cardboard box, including 2 batteries* + 1 charger

* 2.0 Ah battery

ADVANTAGES

» UNCOMPLICATED

Easy to drill in by pressing down,
drilling out possible at any time

» ENDLESS DRILLING

Endless drilling up and down

» FLEXIBLE

Three operating modes: force control,
stroke control, **THREADSAFE** (combination
of force and stroke control)

» RELIABLE

Optimised sleeve diameter for
tight installation spaces

» LARGE WORKING RANGE

13 kN setting force and 15 mm stroke

» ERGONOMIC DESIGN

Small, light and handy

» TOOL-FREE – QUICK CHANGE

Tool-free thread mandrel change

» ADJUSTABLE THREAD MANDREL LENGTH

» PROVEN TAPPING FUNCTION

Energy-saving thanks to shorter setting cycle

» MODERN BATTERY TECHNOLOGY

Cordless Alliance System – 100% compatible

» VIRTUALLY WEAR-FREE thanks to BLDC motor

Threaded mandrels and nosepieces

Blind rivet nuts thread dimension	No.	
	Threaded mandrel *	Nosepiece-bit *
M3	2175759	2175754
M4	2175760	2175755
M5	2175761	2175756
M6	2175762	2175757
M8	2175763	2175758

* Accessories, threaded mandrels and nosepieces available from Q2, 2026.

IDEAS BACKED BY 70 YEARS OF EXPERIENCE

GESIPA® is your development partner.

Together, we will find the most economical and technically sound solution for your application.
